

2ND ANNUAL

POWER²

Youth and Adults
Shaping Vermont
Education Together

a summit to inform, inspire and move us to action

April 27, 2016 | 9 am–3 pm | Lake Morey Inn and Resort, Fairlee, VT

Register a youth-adult team for this summit if you would like answers to these questions:

- What does it look and sound like when young people partner with adults as they shape their educational experience?
- How can we learn from other schools engaged in similar work to elevate student voice?
- What are our next steps to address the youth-adult relationship in our school, ensuring that both power and responsibility in learning and education are shared?

SAVE THE DATE!

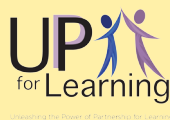

This is a remarkable era of education redesign in Vermont. With the advent of Act 77: Flexible Pathways and new Education Quality Standards, there are unprecedented opportunities for youth to partner with adults as messengers and co-creators of school change.

The current vision for education in Vermont will require students to assume a far more active role in their learning; it will fundamentally reshape the student-teacher relationship to one of shared responsibility and partnership.

Come be part of a highly interactive day designed to promote dialogue, choice, creativity and networking. This conference is for high school students, teachers, administrators, school board members, or other individuals partnering in school change efforts.

Space is limited to 125 participants; registration will be on a first come, first serve basis. Maximum team size is 8. Cost: \$25 per adult; \$15 per student (scholarships available upon request). **The summit flyer with workshop descriptions and registration information will be available in March.** Email erin@upforlearning.com if you would like a flyer sent directly to you then.

A collaborative effort of UP for Learning, Shelburne Farms, the Partnership for Change, Big Picture Learning, and the School Project Foundation, with support from the Bay & Paul Foundations.
