

The Power of Youth-Adult Partnership in Reimagining Education

a four-part webinar series

"There is no power greater than a community discovering what it cares about."

—Margaret Wheatley, *"Turning to One Another"*

With the shift in our educational landscape, now, more than ever, it is critical that we create opportunities to meet the needs of all learners. In this webinar series, we will build understanding and support for youth and adults working together as full partners in learning and change. This series is for schools/organizations desiring to take the next step in shifting their student-teacher paradigm to one of partnership. This series offers means to introduce, assess, create action plans and monitor changes in the school culture over time, embedding partnership into the fabric of the educational/organizational structure.

This webinar series will explore:

- The WHY of youth-adult partnership
- WHAT youth-adult partnership looks, sounds and feels like
- HOW to assess youth-adult partnership in your own setting
- HOW to ensure the authenticity of youth-adult partnership in your own setting
